RE: Restoration of World War I Monuments in the Village of Nyack Memorial Park

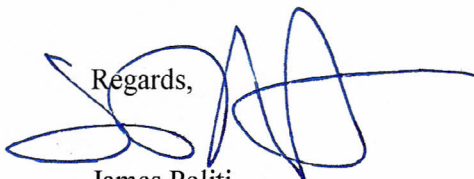

Dear Bob and Tom:

Once again, Monumedic has completed a truly remarkable restoration for the Village of Nyack. Last year, the "Brinks" Monument was restored and this year the World War I Memorial plaques, which are the foundation of the historic stone monument set in Memorial Park, known as the "Memorial Steps" along the banks of the Hudson River. Thank you both for finishing this restoration work before Memorial Day celebrations commemorating the 100th year anniversary of end of World War I. Our local veterans were thrilled and truly impressed with the restoration – to know that the sacrifice of so many will not be forgotten is priceless.

Monuments are an important part of our local history, especially in Memorial Park. The commitment by the Village to preserve this piece of history is significant. Too often, monuments are forgotten as time and weather take their toll, however, the work that Monumedic does to restore monuments to their original finish is truly remarkable.

Thank you for your dedication to preserving history – one monument at a time! Many, many, thanks from the Village of Nyack.

Regards,

James Politi
Village Administrator
